Ava Cottrell

Website: www.medicaid.ohio.gov

Ohio's episode-based payment model seeks to reduce health care costs and improve quality of care by providing transparency on spend and quality across an entire episode, allowing providers new visibility into their performance and how they compare to peers. An episode of care includes all the care related to a defined medical event (e.g., a procedure or an acute condition), including the care for the event itself, any precursors to the event (such as diagnostic tests or pre-op visits) and follow-up care (such as medications, rehab, or readmission). Episodes, which are built from the perspective of a patient journey, offer a comprehensive view of the care involved in treating a condition for a patient.
