

John R. Corker, MD, FACEP

If re-elected, I will continue to bring a unique skill-set and perspective to our AMA Delegation. Though still early in my journey of lifelong learning, I have spent the last 13 years creating policy and advocating on behalf of our patients and colleagues at the local, state and national levels. I am fellowship trained in health policy, having spent a year living inside the DC beltway and working in the AMA's Capitol Hill offices. Meeting daily with policy-makers on all sides of our shared aisle, I've seen what it takes to turn our important work here in Ohio into actionable policy on a national scale. I have used this experience to inform my work at all levels of advocacy – from my three year stint on the AMA's Council on Legislation, to my local efforts to secure vital funding for critical-access clinics, protect the interests of independent physicians facing hostile takeovers from Private Equity, and secure vital information, PPE and support for our members during the COVID-19 pandemic.
