

By trade I am a board-certified OB/GYN in a private practice group. My past experiences include past Pres. Toledo and Lucas County Academy of Medicine, board member Toledo Community Foundation (a large non-profit philanthropic organization), 10 years serving as Chairman of OB/GYN, 10 years as Director of Medical Education and 3 years as Chief of Staff Mercy St. Vincent Medical Center, a hospital institution with approximately 1000 medical staff members and 190 learners on any given day. I have also been an active member of Mercy St. Vincent MEC for over 25 years.

Over the 8 years serving on Council as District 4 representative we worked diligently to develop new mission and vision statements, setting our strategic priorities as well as addressing the opioid crisis and physician burnout. I was also District 4 Councilor. I have served 3 years as Alternate and the past 6 years as Delegate to the OSMA/AMA. The past two years I have served faithfully as president elect and president of the OSMA

I have an easy going personality with a sense of humor, I come prepared, work efficiently and have the ability to get things done. I believe that I have all the necessary personality traits and skill sets to further the mission and vision of the OSMA/AMA and therefore am asking for your continued support to serve as your Delegate to the AMA.

Sincerely,

Anthony J. Armstrong M.D., Mph, F.A.C.O.G.
