RE: Re-Election to the Council of the Ohio State Medical Association

I would like to take this opportunity to express my interest in re-election as an At-Large-Councilor of the Ohio State Medical Association. During my first term as Councilor, I have grown personally and professionally and I hope my efforts helped us achieve our goals. Irrespective of the challenges we face, I will use my best efforts to maintain and enhance a physician's ability to provide their patients with reliable access to high quality, timely, cost effective health care.

I believe we should be guided by the 4 AIMS: population health management; experience of care; cost containment and physician health and wellness. In 2021 we must continue to focus upon many important issues such as membership requirement and retention, legislation, the regulation of the practice of medicine, adequate funding of Medicaid and post graduate medical education, the health and wellness of our physicians and the issues brought forward by the Covid pandemic, especially with respect to diversity and health disparities. Furthermore, I plan to remain an active member on our Focused Task Force on state legislation and I am excited about the opportunity to be a board member of our Education Foundation.

It has been an honor to serve on the OSMA council and I look forward to being elected to another term. I hope you can support my candidacy.

Cordially,

John A. Bastulli, M.D.
Director, Division of Anesthesia
Medical Director, Surgical Services

Managing Partner, Cleveland Anesthesia Group
