OSMA Council – At Large Candidate 2021

John R. Corker, MD

Personal Statement

To my OSMA family, thank you for allowing me this tremendous opportunity to run for re-election as an At-Large representative on your Council. For those of you who don't know me, my name is John Corker, and I practice Emergency Medicine in Southwest Ohio. I was born in Columbus at Mt. Carmel Medical Center, raised in Cincinnati near Mercy Anderson, and married a Cleveland girl who is now finishing her Pediatrics Training at the Cincinnati Children's Hospital Medical Center. Since my early days as a medical student at Wright State, I can remember holding our OSMA leadership in the highest regard, and have had so many mentors whom I admire and strive to emulate. During my first term on Council, I hope that I have contributed even a fraction of what I've learned from my colleagues and our dedicated staff.

If re-elected, I will continue to bring a unique skill-set and perspective to our Council. Though still early in my journey of lifelong learning, I have spent the last 11 years creating policy and advocating on behalf of our patients and colleagues at the local, state and national levels. I am fellowship trained in health policy, having spent a year living inside the DC beltway and working in the AMA's Capitol Hill offices. Meeting daily with policy-makers on all sides of our shared aisle, I've seen what it takes to turn our important work here in Ohio into actionable policy on a national scale. I have used this experience to inform my work at all levels of advocacy – from my three year stint on the AMA's Council on Legislation, to my local efforts to secure vital funding for critical-access clinics and mandatory rest breaks for manual laborers suffering from epidemic heat-related illness.

What's more, through my work in both print and broadcast journalism at Radio Rounds, I have developed a love for sharing stories of the best and worst that our health care system has to offer – from the diverse perspectives of those whose lives illustrate these stories. I believe these skills of listening and translation to be fundamental for any leader, physician or otherwise. As I mentioned earlier, as a PGY-7, I remain very much a learner. I don't have it all figured out, and I certainly don't have all of the answers we seek. But I pledge to you today that I will continue to listen to you, and I will do everything I can to translate our stories into a better OSMA and a better health care system for each of us and our patients. Thank you for your support, and for all that each of you do.

LETTER OF RECOMMENDATION FOR JOHN R. CORKER, MD

TO: OSMA NOMINATING COMMITTEE

FROM: Evangeline C. Andarsio, MD

DATE: January 16, 2021

To Chair and Members of the OSMA Nominating Committee:

This is a letter of recommendation for John R. Corker, MD for re-election for the position of OSMA Councilor-at-Large. I have known John Corker, MD since his medical school days at Wright State University Boonshoft School of Medicine (WSU-BSOM).

I am a Past-President of OSMA and Montgomery County Medical Society. I have witnessed first-hand, as past OSMA Councilor and an AMA Delegate in the Ohio Delegation, the excellent skill set Dr. Corker has, to continue in his position as an OSMA At-Large Councilor. In offering my highest recommendation of Dr. Corker to be re-elected, my focus will be on three main categories that exemplify his skills:

1. Policy Making Skills and Advocacy

John has been involved in organized medicine since his days as a medical student. His outstanding history of service in organized medicine include being the student and later the resident member of the AMA's Council on Legislation. He was selected to be the AMA Government Relations Advocacy Fellow and spent a year in Washington D.C. in which he honed his skills in developing policy. He is very active in our District Two meetings and is always enthusiastically involved in writing and analyzing resolutions. He is very knowledgeable in current issues involving the practice of medicine. John is open to listening to all sides of the debate and has a way of finding common ground to allow all voices to be heard.

2. Visionary Leadership

John is a true visionary in accessing the needs of the medical community and our patients. When the COVID-19 pandemic was thrust upon us he started the Montgomery County Medical Society COVID-19 Task Force so the physicians of MCMS could be in the fore front of serving the needs of our patients and the

physicians in our community during this challenging time in medicine. I am a member of the committee and I have witnessed his exemplary leadership and organizational skills first-hand. Through his experience in both print and broadcast journalism at Radio Rounds, John has been interviewed multiple times by Dayton TV stations and journalists regarding the pandemic; representing the physicians of Montgomery County in an excellent manner. Also, John is the lead in updating the MCMS Website and has done an outstanding job.

3. Professionalism

John's professionalism is impeccable not only as an Emergency Medicine physician in Southwest Ohio, but also representing Ohio's physicians in his current position as OSMA At-Large Councilor. He is respectful, a great listener, kind and caring in how he treats others – a true gentleman. John is someone you can truly count on when a job needs to be done. His resiliency is exemplary, juggling all his involvements with work, service and his personal life.

It is my privilege to recommend John R. Corker, MD enthusiastically and without reservation for re-election as an OSMA At-Large Councilor. As a long time OSMA member, I know we are truly blessed to have someone of John's caliber be an OSMA member and current OSMA At-Large Councilor!

Sincerely,

Evangeline C. Andarsio, MD
