Aesthetic Fellowship Director- 2011- 2014  
Resident Cosmetic Clinic Director- 2007—2014

# Anne Taylor, MD, MPH

OSMA 2021 "Can I take a mulligan?"

Dear Nominating Committee,

I am writing to express my desire to serve again for the Member at Large position on the OSMA Council. I first want to express my gratefulness for having the opportunity to serve in this position over the last 2 years. I never would have imagined the time would pass as it did, as we agree, but in this particular case, there is a silver lining.

Please allow me to explain. Over the course of my career, I have served in many organizations at many different levels. In these roles I have been active and engaged. To be honest, I have loved these jobs, and the collegiality and connectedness that came with it. For me, if I am going to be in an organization, I like to actively participate in the leadership. So for the OSMA, it was no different, and I was looking forward to this aspect, when the bottom dropped out for us all.

Frankly, the last year was a rollercoaster for me. My office was shut down for over 10 weeks, and I found myself depressed, disconnected and doubting everything I thought I knew. Not being able to plan anything left me almost paralyzed. As the quarantine lifted, and some activities returned, I was able to think again, and feel more like myself again. Over the last months of reflecting, and then resuming activities, I understand myself better I have identified the ones that really matter to me. OSMA is one of these activities. The Pandemic has helped me edit my priorities, focus my attention and clarify some long term goals.

My goal to serve (actively) on the OSMA council remains constant, clear, and unchanged, so the challenge for me is our current virtual environment. I know I am not as facile or effective on ZOOM when there are so many participants. I start to speak and then am cut off and I miss the visual cues around the board table. Please know that I actually enjoy listening to the rest of the participants speak, and find myself nodding in agreement most of the time( to my cat) during the meetings. Even at the end of a 4 hour Zoom council meeting, I find myself energized by the discussions. So I eagerly look forward to in-person, (albeit socially distanced) meetings. In the meantime, I will do my best. But to be honest, I feel my performance was not what I had expected, not my best effort, and not really what I could do. Using the golf analogy, it was a slice into the trap, and I triple bogeyed the entire year.

My main passion is the policy and politics of healthcare. This has crystalized during the last year in a way that I never would have imagined, since the politics of a virus never crossed my mind before. And in addition to this novel ( I had to say it!) twist, the rest remains to be done including the OSMA healthcare legislative agenda, including OON and surprise billing, GME funding, physician payment reform to name the big ones. I do serve on the Legislative Affairs committee for my specialty organization, but do not have any other major time commitments with my specialty. I want to use my time in Ohio, for the OSMA.

In summary, it was a difficult year for us all, but silver lining that has been the most profound for me has been the acknowledgment of my deep personal need for connection to others. And with this in mind, I hope to remain on the Council for another term, and serve even more actively. As a long range goal, I would like to progress to district councilor, and continue actively serving my Ohio colleagues and patients. For me to live my best life, I have to be around others, working on a common goal.

Since my youth I have golfed – poorly—and enjoy the many lessons and metaphors, and in this case it is a mulligan. I think the entire 2020 was a slice into the sand, and I would like to get back on the tee box and use my mulligan on this year. Thanks!

Dear Members of the OSMA Selection Committee,

I am writing to you in support of Anne Taylor, M.D. for her re-election as a Councilor at-large on the Ohio State Medical Association Council. I have known Anne since our days together in the AMA Young Physician Section and as a colleague in the OSMA. She has always been an enthusiastic, thoughtful, and well-spoken member of the OSMA. In addition, I have worked with Anne during her first term as councilor and she has proven to be an effective member of the council. Despite Anne's request to "call a mulligan" in her personal statement, I think Anne has been a responsive and active member of our council within the constraints of the virtual world.

Anne brings a diversity of experiences with her to the council having served in many leadership positions at the local, state, and national level for the Columbus Medical Association, the Ohio State Medical Association and the American Medical Association in addition to serving in many capacities for the American Society of Plastic Surgeons.

Anne also contributes to the council through her varied experiences in many aspects of medicine. She has practiced in both private and academic settings including establishing her own solo practice. Anne has played significant roles in the medical student arena as well, having served on and co-chaired the selections committee for the Ohio State University College of Medicine and serving as the faculty adviser for the Women In Medicine group at OSU-COM. In addition she organized a female surgeon mentoring forum with FAME.

Anne is truly a go getter. She always brings 110% of her energy and enthusiasm to any position or task. I enthusiastically endorse her to continue as an At-large Councilor on the Ohio State Medical Association Council.

Sincerely,

[Lisa Egbert](#)

Lisa Bohman Egbert, M.D.
