Personal Statement:

Dear esteemed colleagues,

As I seek to extend my tenure in a leadership capacity with the Ohio State Medical Association, I am eager to leverage my extensive skills and experience for the betterment of physicians across our great state. Having been an active member of OSMA for a considerable duration, I have actively engaged in the resolution process, consistently attended the annual meetings, and dutifully served as a Councilor at large. It is my earnest desire to perpetuate my role within the organization and maintain an active contribution.

My dedication to the community has been manifested through initiatives aimed at addressing health literacy, with a specific focus on providing culturally appropriate health education in areas disproportionately affected by chronic diseases. Moreover, I have lent my expertise to multiple nonprofit boards and held the position of health commissioner at a local health department. Currently, I am honored to serve as the Medical Director for the same health department.

I am keen to continue employing my leadership acumen for the advancement of OSMA members, and I am optimistic about the prospect of continuing to do so.
