Personal Statement

OSMA At-Large Councilor Re-Election

February 4, 2024

My name is Chris Paprzycki, and I am a board-certified vascular surgeon in Cincinnati, Ohio. I am asking for your vote for re-election as At-Large Councilor on OSMA Council. I have been an active member of the Ohio State Medical Association since my first year of medical school 16 years ago. In that time, I have served within the organization at multiple leadership and volunteer positions. I currently serve At-

Large Councilor from District One, as well as an elected Delegate on the AMA Delegation. In addition, I am active in my local Academy of Medicine of Cincinnati, where I have served on Executive Council for the past 6 years.

My experience within organized medicine and the OSMA has given me a passionate and unique perspective on the critical issues that Ohio physicians face daily. It was never more apparent than during this past November's election that the practice of evidence-based medicine is under attack. The OSMA needs strong leadership to move forward, and I believe that my experience will help the OSMA and the Council reach our goals in the coming years. America is divided, and we need each other now more than ever.

I ask for your vote for re-election as At-Large Councilor. Thank you again for your consideration, and I look forward to seeing/meeting everyone in Columbus!

Sincerely,
