Personal Statement:

I have been a member of the OSMA Delegation to the AMA first in my capacity as OSMA president and then as both an Alternate and Delegate. Currently, I am serving as Chair of the Delegation and have the privilege of working with our dedicated delegation members as we represent physicians of Ohio. As a delegation we give voice to the policies that our House of Delegates adopts and develop strong working relationships across the AMA to further the aims of these policies. For the future I am focused on increasing the value that the delegation brings to the OSMA by not only representing OSMA policy but also by bringing to our House novel ideas from the AMA that may benefit the OSMA and serve our practices and our patients well. I respectfully ask for your vote so that I can continue with the work of the delegation.

Richard R. Ellison, MD
